St. George's Central CE Primary School and Nursery

School Improvement Plan 2017/18

(Key targets/actions)

Each year the school has to produce a school improvement plan to show how we will move the school forward over the coming year. This is a lengthy document that has many key statistical targets that we will strive to meet, however, for your convenience I have picked out the key actions, for this year:

To enhance the spiritual development of children through the effective curriculum delivery of RE and PSHE in line with our church school ethos.

To continue to develop the leadership of our Lancaster Avenue Nursery in order to further increase levels of achievement for all children.

Closely track children in order to ensure that more meet the expected standard or above based on prior attainment. To take a more focused and analytical approach to the leadership of inclusion in order to improve pupil outcomes across school.

Ensure that
'Improving
Learning' activities
undertaken by
school leaders are
amended to
include a wider
range of subjects
and that its focus is
on sharply
evaluating the
impact of teaching
on pupils' learning.

Develop connectivity in mathematical concepts and develop the language of reasoning and explanation within mathematics.

Review all curriculum subjects so that leaders have a clear picture of progress and attainment within their area.

Continue with the focus to raise standards in reading to ensure more pupils meet the expected standard and above All year groups to increase the % of all children achieving the expected standard in SPAG.

Amend the provision in writing to increase the proportion of pupils who meet the high standard and demonstrate a greater depth of understanding

'Never settle for less than your best
